About LACROIX

Convinced that technology must contribute to simple, sustainable, and safer environments, LACROIX supports its customers in developing more sustainable living ecosystems, thanks to useful, robust, and secure electronic equipment and connected technologies.

As a listed, family-owned midcap with a €761 million revenue in 2023, LACROIX combines agile innovation, industrialization capacity, cutting-edge technological know-how and a long-term vision to meet environmental and societal challenges through its activities: Electronics and Environment.

Through its Electronics business, LACROIX designs and manufactures industrial IoT solutions (hardware, software, and cloud) and electronic equipment for the automotive, industrial, connected homes and buildings (HBAS), avionics and defense, and healthcare sectors. As the Group's industrial backbone, the Electronics activity of LACROIX, is ranked among the TOP 50 worldwide and TOP 10 European EMS,

Through its Environment activity, LACROIX also supplies secure and connected electronic equipment and IoT solutions to optimize the management of water networks, heating, ventilation, and air conditioning installations, as well as smart grids and smart lighting networks.
