Sharp increase in revenue in line with forecasts

After the Group presented its results last January 18th, and announced a dynamic growth for financial year 2017-2018, the consolidated revenue of the first Quarter confirms this forecast with a growth by + 9.9% reaching €116.5 M.

Consolidated revenue as of December 31st, 2017 breaks down as follows:

(in million Euros)	FY 17/18	FY 16/17	Variation N / N-1

Total LACROIX	116.5	106.0	+ 9.9 %

Highlights of the period:

- LACROIX Electronics achieves an increased activity by +12.4%, still driven by Poland but also supported by a positive contribution of all industrial sites.
- LACROIX Sofrel posts a revenue up +13.6%, driven by the Energy market and exports, due in particular to significant one-off orders in Italy at the end of calendar year. This favorable evolution confirms a return to growth for this activity, but the growth will be more moderate over the year than over the 1st quarter.
- LACROIX City records a moderate growth by +1.7% in revenue. Business prospects remain positive and allow to anticipate a faster growth rate over the year.
